Backlog Refinement 2

The main goals for this sprint:
- Editing profile picture
- Custom bio
- Viewing other users' profile
- Following other users

The development team had a few questions for the client:
- ✓ What is our main priority?
- ✓ How should the user view the post?
- ✓ What is the main challenge?
- ✓ Twitter or Instagram or a blend?
- ✓ Implementation of the follow feature and complexities?
- ✓ What does the number of followers entail?

User Stories

- ❖ As a user I should be able to follow other users so that I can see their posts.
- ❖ As a user you should be able to search other users so that you can easily find friends users to chat with and follow.
- ❖ As a user, I should be able to view another user's profile so that I can see their saved information.
- ❖ As a user you should be able to go to your own profile so that you modify it.
- ❖ As a user you should be able to edit your profile so that you can change the information other users see about you.
